GENERAL TELEPHONE INFORMATION

Official crossborder calls should be placed through your local operator. Official overseas calls require a telephone control number which can be obtained by dialing 4005/4006/4007 during normal working hours. In emergencies, control numbers can be obtained by dialing 4325 or 5796. However, the subscriber should keep in mind that the telephone system is not secure and classified information should not be discussed.

Saigon Area

There is more than one Dial Telephone Exchange located in the Saigon/Cholon area. To make a telephone call from one exchange to another, an EXCHANGE PREFIX must be dialed. In some instances, this is a three digit prefix such as 922 for the TIGER exchange or 923 for the DAO exchange; in other instances, it is a double digit prefix such as 90 for the GVN P&T exchange. If you have a telephone on the SAME exchange as the party you desire to call, then the exchange prefix is not used. For example, if you are using a USAID telephone no exchange prefix must be dialed to call another USAID telephone number. See pages 11 and 111 for exchange prefix dialing instructions.

Inter-Tandem Direct Dialing

Only Class "A" subscribers can dial from one in-country tandem (sequence code) area to another in-country tandem (sequence code) area. Consult your directory for the correct listing of the subscriber you wish to call. If you have Class "A" service, dial the digit eight (8) and wait for the second dial tone. NOTE: After dialing 8 a two or more seconds delay will occur before the second dial tone will be heard. Next, dial the seven digit number of the desired party. Tandem Area Code Prefix (three digits) plus the extension number (four digits). NOTE: After dialing is completed, a several seconds delay will occur before ringing is heard. Do not attempt to speed dial, allow the dial to return to its proper place under its own momentum. If you have Class "C" service, contact your local operator for assistance to other in-country numbers.

Manual Switchboards

For best results in accessing Vietnamese switchboards, please contact your operator.

Overseas Collect Calls

Collect calls can be made to the USA 24-hours a day by dialing the operator and asking for "Oakland." Place the collect call through the "Oakland" operator. The price for this service will be approximately \$3.30 per minute.
